Life is a journey filled with unexpected miracles.
At Child Crisis Arizona we are humbled by the history of our collective journey and the role we have played in helping this community address issues related to child abuse and neglect.

Our vision is “Safe kids...Strong Families” so until that is accomplished, our job is to continue to stretch, search and reach for more to address the continuum of care for children.

Over the years, Child Crisis Arizona has helped generations of vulnerable children navigate their journey; many of them have had to overcome insurmountable obstacles to heal. We have not done this alone. The true heroes are all of you, the community that supports the journeys for children, youth and their families to keep moving.

We are forever grateful for your commitment to our mission...

“Safety and security don’t just happen, they are the result of collective consensus and public investment. We owe our children, the most vulnerable citizens in our society, a life free of violence and fear.” — Nelson Mandela

Emergency Placement for Homeless and Foster Children

Having a safe place to rest at night is an essential part of any journey but it’s just the beginning. Child Crisis Arizona provides care 24/7/365 for up to 181 children and youth who have experienced abuse or neglect at our Emergency Children’s Shelter, Group Home for Foster Teen Boys, Refugee Shelter & Resettlement, Independent Living for Foster Teens Shelter, and Foster Care & Adoption. Wraparound services ensure the emotional, mental, and physical wellness of the children and youth in our care, ages birth to 21.

Our newest program, Independent Living Program for Foster Youth, allows youth 16-21 who are in foster care and/or aging out of the system to experience independence with a safety net of support behind them.

Foster Care & Adoption

We support couples and individuals who can provide temporary or longterm care for children removed from their family due to abuse, neglect or abandonment. Training and support for foster families helps ensure the child’s placement will be successful. We also provide an adoption-only option for families. Family events and 24-hour on-call assistance are available for those who license through Child Crisis Arizona.

Family Education

Providing an array of 300 free workshops, classes, support groups, legal clinics, professional development training, and family friendly events to teach positive parenting skills to prevent possible child abuse or neglect and build strong resilient families. From Car Seat Safety to Drug Trends, online and in-person Family Education courses arm parents with the tools they need to parent effectively and confidently.

Early Education

Quality Early Education puts a child on a path toward success. Child Crisis Arizona’s early education programs now provides 336 children living at or below the federal poverty level through on site and in home instruction in Mesa and Phoenix. Programming encourages and requires parental involvement in preparing children for kindergarten and beyond.

This year Child Crisis Arizona expanded programming in Phoenix to serve an additional 60 children, including the children living in our Emergency Children’s Shelter.

Children’s Counseling

Children who have experienced abuse and neglect early in life benefit from the compassion found in our counseling program. Our therapists are well-versed in childhood trauma and work with children and their parents to overcome the challenges they face and help ensure success in the future.

RESIDENT OF INDEPENDENT LIVING PROGRAM

“journeys of hope”

Struggling to control her intense emotions after being separated from her sister in foster care, Summer did not thrive in her foster home and would often have fits of screaming, kicking and breaking things. Her therapist at Child Crisis Arizona taught her new tools to handle her big emotions, like hula hooping and mindfulness. Summer’s behavior vastly improved allowing her to move into a new foster home where she was reunited with her sister. The sisters and their foster mom are excited to work together on their journey toward adoption.

“Respecting the past...creating the future...”
"If no one ever was in your life to teach you the things that are important as an adult, there are definitely people here that take the time and patiently teach you these things and teach you how to be an adult. When I was in the group home I didn’t learn how to be an adult or any of these skills. They give you the space to figure out yourself too.” — Joseph, 19
